Joe Wilson Productions L.L.C.
NWANC Founder/Promoter

Dear _____,

My name is Joe Wilson, I am an Arkansas native, a Bentonville High School math teacher and club sponsor for the Body Improvement Club, and the promoter of Arkansas' first drug-free natural competition for figure, bikini, both male and female physique and bodybuilding competitors called the Northwest Arkansas Natural Championships. I know you can receive a lot of positive exposure to the 100's that visit our site each month and potentially make a lot of revenue for your business if you partner with our program of showcasing Natural Bodybuilding to Arkansas.

The Northwest Arkansas Natural Championships (NWANC) is a regional pro-qualifying competition/event that brings spectators and competitors from all over the Mid-West region of the US. This event will take place on **July 15th, 2023 at the Metroplex Event Center in Rogers, AR** and will be the sixteenth year the show has taken place. I am looking forward to having your business to be involved with the show's continued success and growth along with creating the exposure of your services to the 100's of competitors and spectators that come to the event. We are growing each year and will be expecting 50+ competitors and over 600 spectators at this next competition.

The North American Natural Bodybuilding Federation (NANBF), a non-profit organization, is our sanctioning body which strongly supports drug free bodybuilding throughout the United States. There are over 3500 competitors registered in the NANBF that receive our monthly newsletters. To be eligible to compete, each athlete must be drug free for at least seven years. Testing is done by subjective urinalysis and 100% polygraph. Our events allow the natural athlete to be confident they are competing against their drug free peers.

Our objective in putting these natural shows together is not only to provide the events for these natural athletes, but also to educate our citizens about the dangers of drug use and abuse. This includes school age children, where the drug problem continues to grow. I teach at Bentonville High School and sponsor the Body Improvement Club. I realize that a drug problem does exist in the school system and all over the nation. I want to show this upcoming generation that a good, healthy physique can be reached through proper nutrition and exercise without the use of harmful drugs or banned substances. I want to create a haven for the natural competitor, and I am happy to have been able to do so for over 16 years.

In the last fourteen years, the show has grown tremendously in new competitor entries and tickets sold. In the 2022 show, we had 29 drug free competitors... this also brought a crowd of over 400 to the Metroplex. This shows that Arkansas and the surrounding states are recognizing the effort toward creating a positive atmosphere with drug free athletes. With the partnership with the NANBF, there is no doubt that this show will increase in size of attendees and great exposure of our local and regional supporters.

It is through the continued support of the sponsors that this event is possible and we (the NANBF) are able to reach our objectives. I sincerely hope you will be able to aid in our efforts in providing a top-notch show for those athletes who do not believe in "short cuts" to success.

Please look on the next page for the sponsorship packages list to see which could benefit you the most. The relatively inexpensive, one-time monetary sponsor prices can also include merchandise and products of your business. For exclusivity, the \$1,500 must have a check of minimum 66% of the sponsor package for the NWANC (\$1000), but may also include product within sponsorship.

Sponsorship of this event will express your support of the growth of natural bodybuilding and allow you to:

1. **Place your name in most, if not all, health clubs, fitness centers, and supplement stores in the southern central and mid-western regions of the United States**
2. **Showcase your products & services to hundreds of people in attendance through show display**
3. **Place your name before the eyes, ears, and in the hands of thousands of readers, social media viewers, and spectators through the show website, newspaper/radio advertisements, banner and competition programs.**
